## Forsyth

**FORSYTH.**—The county seat of Taney county, is beautifully and centrally located at the junction of the sparkling waters of the Swan with the swift and crystal current of beautiful White river. The site is ideal, and the little, well built and well painted city, fastened at the meeting of the waters like a gem at the throat of beauty, while the wooded ridges flank in every direction the central focus, all form a picture which lingers long in the memory of the visitor—and he usually comes back to refresh the picture.

The Presbyterian church has decided to locate here its college for southwestern Missouri and northwestern Arkansas, making of Forsyth a prominent college town. The fact that Forsyth donated a forty-acre site and over three thousand dollars toward the establishment of this school sufficiently indicates the attitude of our people toward the higher education. The fact that the committee representing the church required an option on an additional 100 acres of land affords some clue to the plans of the church.

We have a good graded school, a neat stone chapel open to all churches, a well supported union Sunday school, daily mails from all directions—in short, more advantages than many a more populous and wealthy community.

A steamer is soon to be placed on White river for freight and passenger service, with headquarters at this place, to make daily trips to the new town of Branson, ten miles west on the White River railroad. A mail and back line with headquarters here, gives daily connection with the "Frisco System" at Chas. Creek.

Most lines of business are represented, including general merchandise, drugs, millinery, hotels, livery, lumber, meat market, undertaking, printing, tailoring, millinery, blacksmithing, carpentry, etcetera. We have an able and sufficiently numerous corps of lawyers, a good physician, and real estate men enough.

We need a resident dentist, a furniture store, a hardware store, a wood-working factory to utilize our native woods, and various other enterprises can find or make good openings.

John Gray, colored, formerly of this place, was arrested at Springfield Sunday, charged with embezzling his employer, Mr. Bowers, of \$350, which had been entrusted to Mr. Gray for the purpose of purchasing cattle in Taney county. Gray claims he was held up and robbed by three men when near Springfield Saturday.—Ozark Republican.

The Ozark Republican notes that Nixa has put in an electric light plant to operate fifty lights, and then sarcastically observes: "The next thing we shall hear of will be that ground has been broken for a trolley line to Springfield. Springfield, you know, is a town of some importance about twelve miles north of Nixa."

They ought to be used in every school. 50 for 25 cents, prepaid. 100 for 45 cents. Republican, Forsyth, Mo.

Mr. School Director—if you have had a satisfactory school during the past term, why not tell the teacher so and re-employ him at once and increase the salary a little if possible? A good teacher is never over-paid. A poor one is never under-paid.

It is difficult to cure a cough or free yourself from the discomforts of a cold unless you move the bowels. Bee's Laxative Honey and Tar acts on the bowels and drives all cold out of the system. ## LOOK HERE!

Dr. Crone, the Springfield Dentist, will be in Forsyth April 24th, 25th and 26th. Longer if engaged.

The Ozark County Times of March 31st contained an itemized statement showing the financial operations of the county for the fiscal year ending December 31, 1904. This is not only the proper thing, giving the citizen a knowledge of the county's business transactions and financial standing, but a thing required under the law as well. How long has it been since the people of Taney county have seen an itemized statement, or a statement of any kind showing where the money comes from and where it goes, or showing the county's financial condition?

Mr. and Mrs. J. E. Everly were county seat visitors Saturday. Mrs. Everly warned the Republican against stating again that there would be no peaches, and of course the warning will be acted upon. The error grew out of placing too much credence in the reports of the "fruit sharps," with titles and without, that have been so extensively published. At any rate, the opinion of any one outside the sunny side of the Ozark uplift is of little value in this favored region. The Ozarks are all right and a law unto themselves.

Negro Tom Marley got into a dispute with another negro on the street Saturday night and displayed a pistol. He was arrested and had a trial before a jury in Justice Esson's court, Monday and was fined \$50 and costs for carrying and displaying a deadly weapon, and not having the wherewith to liquidate he went to jail. The pistol he exhibited is said to have looked suspiciously like those recently stolen from the Ozark Hardware Co.—Ozark Democrat.

We have received an urgent invitation to attend the Trans-Colorado exposition and home-seekers fair to be held at Brady, Texas, July 3rd to 8th. The management tells us to bring our wife or if we are not so blessed to come and find us a sweetheart among the beautiful daughters of the ranchmen of that country. At any rate they promise us a most enjoyable time.

**County Depository.** Notice is hereby given that in accordance with section 8817 R. S. State of Missouri, 1899, I will receive sealed bids at my office, in Forsyth, Missouri, for the county depository for the funds of Taney county for the two years next ensuing.

Said bids will be received until the first day of the May term of the county court, 1905, on which day at 12 o'clock they will be opened and considered. J. W. HUGHES, County Clerk.

The old saying that he who makes two ears of corn or two blades of grass grow where only one grew before is a real benefactor of mankind is as true of the modern agricultural editor as of any other class of public servants. A paper like The Farmer and Stockman, of Kansas City, Mo., actually enables the farmer who follows its precepts to increase very largely the products of his farm, whether it be grain, hay, live stock or dairy products. It is not necessary to travel beyond the limits of Taney county to observe the good effects of first-class farm literature. The circulation of The Farmer and Stockman has greatly increased in this vicinity in the past few years and the results are visible in better methods of farming everywhere. Farm improvements are of a better grade; agricultural implements are more intelligently selected and used; more judgment is used in regard to seed, planting, cultivation and breeding. If any reader of the Republican is not now taking the Farmer and Stockman, we shall be glad to forward him subscription.

One night is all the time necessary to prove that Pineules is the best remedy in the world for backaches and all kidney and bladder troubles. If you have rheumatism or any other blood disease a single dose will give relief. Sold by J. A. Lamb, druggist, Taneyville.

**Co-operative Book Buying.** We consider ourselves very lucky to be able to give our readers a practical object-lesson in the power of co-operation. When we found that one of the largest book publishers had made a great many more books for his 1904 Christmas trade than he could sell, we were not foolish enough to offer to buy the lot because we knew that we could not get the price we were after, but with a little work a syndicate of 100 newspapers was quickly formed and the entire lot of books taken from the publisher at a price which represented only a portion of their actual value. It is the result of this co-operation that we pass on to our readers in offering them for the first time an opportunity to purchase a 328-page, well printed, cloth-bound book for 12c per volume. Please notice the very complete list of titles in our New Home Library, announced elsewhere in this issue. Come and examine the books and see if you do not agree with us that the books in our New Home Library furnish a good argument in favor of co-operation.

A. H. Parrish guarantees Anti-Grippe to cure that cold—and grip—your money back if it doesn't.
